This course provides a deep insight on antenna and RF energy harvesting systems for IoT applications. It includes both lectures and labs/project sessions and presents the latest developments on this topic leveraging on internationally recognized antenna experts.

**COURSE INFO**

- 3 ECTS credits
- Maximum 24 Students
- Registration fees:
  - 440 € per student
  - 880 € per non-student
- Grants will be available.

**INSTRUCTORS**

L. LIZZI  
Université Côte d’Azur, France

J. COSTANTINE  
American University of Beirut, Lebanon

F. FERRERO  
Université Côte d’Azur, France

L. JONSSON  
KTH Royal Institute of Technology, Sweden

Y. TAWK  
American University of Beirut, Lebanon

M. TENTZERIS  
Georgia Institute of Technology, USA
