 Your arrival : 21/08/2017
 Your departure : 30/08/2017

How to book > <http://res.skyteam.com/search/promodefault.aspx?vendor=SKY&promocode=3403S>

**Our drifter 'IESO2017'****Our drifter was on time for Brazilian Carnival!**

After a long and funny journey in the Atlantic Ocean, the buoy was found by fishermen in 'Baia de Marajo' and finally finished the trip at the 'Jubim' village.

A very nice and instructive data base about the ocean currents and the influence of the tides ...

Thanks to the skipper 'Kito de Pavant' to have released the buoy at sea during the race 'Le Vendée Globe' in November 2016.

**'OUT SIDES':**

For IESO 2017 and, in partnership with 'La Galerie de Valbonne' (Monique & Ada Moumani), International Center of Valbonne (CIV) looks for street-arters to paint outer walls of the CIV

The theme is the SPACE and each country will be associated with one of the walls end thus with an artist!

Examination Board in France

EB was visiting French organization team a few weeks ago to discover the ITFI sites and the Practical Tests for IESO 2017. A very instructive workshop to finalize the tests and the field sites.

EB delegation (Gérard Bonhoure, Nir Orion & Xavier Juan) with some members of the French team (Diane Carrer & Jean-Luc Berenguer)
