December 13th
09:30 AM to 10:30 AM
Metabolic reprogramming of mitochondria by proteolysis in aging and disease
Thomas Langer, Cologne, Germany

December 13th
10:30 AM to 11:30 AM
Assessing mitochondrial morphology and its impact in health and disease
Tim Wai, Institut Pasteur, Paris

December 14th
09:30 AM to 10:30 AM
Where in the mitochondrial network does protein synthesis occur?
Robert Lightowlers, Newcastle, UK

December 14th
10:30 AM to 11:30 AM
Premature aging mechanisms & mitochondria
Anu Suomalainen, Helsinki, Finland

December 15th
09:30 AM to 10:30 AM
New physiopathological and therapeutic considerations on a mitochondrial blinding disease
Guy Lenaers, Angers

December 15th
10:30 AM to 11:30 AM
Genome editing in mitochondria: past, present and future
Michal Minczuk, Cambridge, UK

December 16th
09:30 AM to 10:30 AM
Mitochondrial medicine in the omics era
Shamima Rahman, London, UK

December 16th
10:30 AM to 11:30 AM
Genetic diagnosis of mitochondrial diseases via RNA sequencing
Holger Prokisch, Münich, Germany

December 17th
09:30 AM to 10:30 AM
Mitochondrial dysfunction in motor neuron disease
Véronique Paquis-Flucklinger, Nice

December 17th
10:30 AM to 11:30 AM
Maintaining a healthy mitochondrial pool via the NAD+-mitophagy axis as a therapeutic strategy for Alzheimer’s disease
Evandro Fei Fang, Lørenskog, Norway
