| 09/2014 - 07/2017 | <p>Bachelor's degree in Economics 102/110
UNIVERSITY OF FERRARA, ITALY
Thesis title: "The transfer of environmental technologies: construction and analysis of a dataset on international trade and environmental policies". Supervisor Prof. Massimiliano Mazzanti (UNIFE) and co-supervisor Dr. Marianna Gilli (UNIFE).</p> |
| 09/2009 - 07/2014 | <p>Business and foreign languages studies high school diploma 93/100
VITTORIO BACHELET TECHNICAL INSTITUTE, FERRARA, ITALY
Focus on english, french and german languages, management studies, maths for economics and geography.</p> |

WORKING EXPERIENCE

- 11/2023 – 09/2024 | Visiting PhD student
Potsdam Institute for Climate Impact Research (PIK), Potsdam, Germany
Research project in developed in the framework of my PhD about the regional economic impact of tropical storms on subnational economic output information using econometrics techniques. Tutor: Dr. Leonie Wenz. Participation in several laboratory scientific events (Complexity Science dept. scientific seminars and retreat, PIK research days, econometrics discussion group, institute seminars and Data-based analysis of climate decisions research unit weekly presentations). Presented my PhD works during internal seminars/presentations.
- 08/2022 – 12/2022 | Teaching assistant (48 hours)
Sciences Po, Menton, France
Teaching assistant in the CORE economics course (first year of Bachelor's degree in "Middle East and Mediterranean" at Sciences Po University - Menton campus). Focus on macroeconomics and microeconomics. Activities: lectures concepts and exercises follow-up revisions, lectures, preparation of assessment tests, grading of exercises, class interaction, tests and exams and pre-exams class preparation.
- 10/2020 – 09/2021 | Visiting PhD student
Scuola Superiore Sant'Anna, Pise, Italy
Visiting for educational purposes. Attendance of courses and exams preparation. I have attended courses related to advanced maths, microeconomics, game theory, macroeconomics, agent-based modelling, growth theories, industrial organization, causality in macroeconomics, basic and advanced econometrics, advanced statistics and economic history among many others.
- 08/2019 – 08/2020 | Technical employee – market and utilities department
HERAmbiente joint-stock company, Bologna, Italy
Data collection, quantitative and economic analysis of waste flows collected, recycled and sold, creation and updating of reports to monitor waste and second raw materials at firm's strategic assessment purposes and weekly and monthly data exchange and monitoring with CONAI consortia.
- 09/2017 - 07/2019 | University tutor in the Economic field, 210 hours
University of Ferrara, Italy
Support for students in the macroeconomics and public economics exams, support for teachers during examinations and participation in the open days of the faculty.
- 09/2018 - 12/2018 | Guest researcher – Curricular internship and project work, 275 hours
BC3 - Basque Centre for Climate Change, Leioa (Bilbao), Spain
Data collection, econometric and statistical analysis, creation of mitigation and adaptation commitment indicators, literature review and thesis writing. Research themes: climate governance, climate change commitment, regional climate policies, regional climate policy instruments. Participation in the Erasmus + traineeship program.
- 09/2016 - 11/2016 | Extra-curricular internship, 50 hours
University of Ferrara, Faculty of Economics and Management, Italy
Creation of environmental policy indicators (energy efficiency and waste) in Excel; creation of a dataset about environmental policies implementations in OECD countries.
- 02/2016 - 03/2016 | Junior researcher – curricular internship, 100 hours
Eco & Eco LLC, Bologna, Italy
Data collection and revision of the publication "Economy Environment Education", part of the project "showcase of sustainability" of the Emilia-Romagna region; writing of a research draft and conference paper on the systems of payment for ecosystem services.
- 05/2013 | High school internship, 110 hours
C.U.S Ferrara company, Ferrara
Back-office and front-office duties

PAPERS, WORKING PAPERS AND RESEARCH COLLABORATIONS

- Gadani, G., Galarraga, I., Sainz de Murieta, E. (2020). Regional climate change policies: an analysis of commitments, policy instruments and targets. SEEDS working paper series
- Gadani, G., Galarraga, I., Sainz de Murieta, E. (2019). Regional climate change policies: an analysis of commitments, policy instruments and targets. Economics and Policy of Energy and the Environment, 2
- Emilia-Romagna region publication (I was involved in data update in 2016) “Economia ambiente educazione – approfondimenti e spunti di lavoro”

WORK-IN-PROGRESS

- “Natural disasters, polarization and ideological shifts: evidence from US storms” - with Dr. Francesco Lamperti and Dr. Matteo Coronese
- “Breaking news: media exposure and climate change denial in the United States” - solo author paper).
- “Subnational economic damage from tropical cyclones” - with Dr. Leonie Wenz, Dr. Sven Kunze and Dr. Christian Otto)

SUMMER SCHOOLS

- 07/22 Paris School of Economics “Climate change impacts, adaptation and political constraints” summer school (Paris, France).
- 06/22 “KID 2022- Knowledge Dynamics, Industrial Evolution, Economic Development” summer school (Nice, France).

ORGANIZATIONAL SKILLS

- Organization of Prof. Massimiliano Mazzanti’s seminar at GREDEG laboratory (April 2023). Presentation of the work “Modeling Green Knowledge Production and Environmental Policies with Semiparametric Panel Data Regression models” (SEEDS WP)
- Organization of Dr. Matteo Coronese seminar at “data-based analysis of climate decisions” research unit at PIK Potsdam (January 2024). Presentation of the work “Raided by the storm: how three decades of thunderstorms shaped U.S. incomes and wages” (LEM WP)
- Organization of Dr. Marco Gortan seminar at “data-based analysis of climate decisions” research unit at PIK Potsdam (May 2024). Presentation of the work “A unified dataset for pre-processed climate indicators weighted by gridded economic activity” (published in Scientific Data journal)
- Organization of DRUID international conference in June 2024 (SKEMA Business School, University Côte d’Azur, Nice, France, June 13-15, 2024)
- Organization of Dr. Leonie Wenz’s seminar at GREDEG laboratory (September 2024)

SEMINARS AND CONFERENCES

- 07/05/24 | University of Urbino seminar on natural disasters
URBINO (ITALY)
Presentation of my third work-in-progress "Subnational economic damage from tropical cyclones".
- 15/04/24 | BUDYMAC research unit (part of GREDEG laboratory) seminar
NICE (FRANCE)
Presentation of my third work-in-progress "Subnational economic damage from tropical cyclones".
- 30/01/23 | PIK Potsdam Complexity Science Research department seminar
POTSDAM (GERMANY)
Presentation of my third work-in-progress "Breaking news: media exposure and climate change denial in the United States".
- 29/09/23 | Joint Sant'Anna-GREDEG international PhD program in Economics workshop
PISE (ITALY)
Presentation of my second work-in-progress "Breaking news: media exposure and climate change denial in the United States". Discussant: Dr. Graham Beattie (Loyola Marymount University, USA)
- 30/06/23 | EAERE conference 2023
LIMASSOL (CYPRUS)
Presentation of my first work-in-progress "Natural disasters, polarization and ideological shifts: evidence from US storms". Discussant: Dr. Florian Bottner (Universität Innsbruck)
- 15/06/23 | PIK Potsdam online seminar
PIK POTSDAM (GERMANY)
Presentation of my second and first research thesis chapters "Breaking news: media heterogeneously affect US residents' climate preferences and denial" and "Natural disasters, polarization and ideological shifts: evidence from US storms".
- 29/05/23 | Young AERNA PhD day
UNIVERSIDAD AUTÓNOMA DE MADRID (SPAIN)
Presentation of my first work-in-progress "Natural disasters, polarization and ideological shifts: evidence from US storms". Discussant: Dr. Julia de Frutos Cachorro (Universitat de Barcelona)
- 06/05/23 | SEEDS annual workshop
UNIVERSITY OF FERRARA, FERRARA (ITALY)
Presentation of my first work-in-progress "Natural disasters, polarization and ideological shifts: evidence from US storms".
- 20/01/23 | GREDEG PhD Workshop
GREDEG LABORATORY - UNIVERSITY OF CÔTE D'AZUR, NICE (FRANCE)
Presentation of my first work-in-progress "Natural disasters, polarization and ideological shifts: evidence from US storms". Discussant: Prof Zakaria Babutsidze (SKEMA).
- 17/01/23 | Sant'Anna PhD seminar
SANT'ANNA SCHOOL FOR ADVANCED STUDIES, PISE (ITALY)
Presentation of my first work-in-progress "Natural disasters, polarization and ideological shifts: evidence from US storms". Discussant: Dr. Silvia Pianta (EUI).
- 20/01/22 | GREDEG PhD Workshop
GREDEG LABORATORY - UNIVERSITY OF CÔTE D'AZUR, NICE (FRANCE)
Presentation of my PhD thesis research proposal. Discussant: Prof. Lionel Nesta (UCA).

04/11/20 | Euro-Mediterranean centre for climate change (CMCC) seminar
EURO-MEDITERRANEAN CENTRE FOR CLIMATE CHANGE (VENICE, ITALY)
Introduced by Prof. Enrica de Cian (Ca' Foscari university and CMCC, Venice). Presentation of my master's thesis obtained paper "Regional climate change policies: an analysis of commitments, policy instruments and targets".
