

Youth and 35 years of the ERASMUS+ programme

As part of the PFUE, the French Presidency of the Council of the European Union, the Europe Direct Center of Nice and la Maison de l'Europe et des Territoires of UCA, are joining forces for a unique event aimed, mainly, at students and high school students from the French Riviera to celebrate youth and the 35th anniversary of the Erasmus+ programme.

Join us on **April 28 from 9 a.m. at Parc Valrose** to take part in the festivities. A Conference, information stands, a traveling Village, an Escape Game, a competition and various activities will be offered throughout this unique day. All welcome!

The Digital Week

Université Côte d'Azur is launching its first international digital event the DIGITAL WEEK, from **June 27th to July 1st** which will take place in Parc Valrose 06100 Nice.

Join us to take part in talks and workshops about digital soft skills, digital education, digital tourism, creative and cultural industries in our 5 days program hosted by established international entrepreneurs, practitioners, and academics. We will discuss digital innovation and digital impact on emerging and modern fields. The face-to-face event is 100% free.

Registration required here: <https://univ-cotedazur.eu/events/digital-week>

OBERRED : Open science and the academic profession

Open science is seen as a new scientific paradigm for making research accessible, accountable, and effective. Open science is already changing the academic profession, from micro-practices to professional relationships with epistemic communities and stakeholders, with implications we are not yet able to foresee.

The OBERRED project "Open Badge Ecosystem for Recognition of Research Data Management and Sharing Skills" led by UCA, has provided significant insights in an article on open science in JEDEM (eJournal of eDemocracy and Open Government). The article delves first into literature and official documentation to unfold the discursive regimes which sustain the spread of open science. A specific focus is then devoted to the professional transition, highlighting the role of funding organizations in setting the new science environment and the subjective experience of academics. The article is completed by a case study in the field of Research Data Management where the misalignment among incumbent/changing processes can be more apparent.

The OBERRED participation aims to deliver training to academics on MDM through open education using an open system of skills recognition (badges). Finally, a research program focusing on how academic micro-practices affect scientific organizations and structures is proposed.

The article is downloadable in open access format. An academic article posted by Rosanna De Rosa and Biagio Aragona on JEDEM: <https://jedem.org/index.php/jedem/article/view/661>

To learn more about the OBERRED project, we invite you to visit the project website: <https://oberred.eu/>

Erasmus + LOGOPAS project : Consortium meeting in Nice on March 24 and 25

The Chateau de Valrose was the setting for the meeting of the ERASMUS + LOGOPAS project, with the participation of Université Côte d'Azur, on 24 and 25 March. The project partners, from Romania, Germany, Finland and Japan, came to Nice to present the results of the data collection and discuss the next steps to be taken.

The LOGOPAS project, whose main objective is to assess, promote and support local government involvement in physical activity and sport, aims to explore the current legally binding roles and responsibilities of local governments in promoting physical activity and sport and to support an increase in these roles and follow-up actions, sharing examples of good practice and proposing a set of criteria for the evaluation of these actions.

The participants of the meeting enjoyed a pleasant walk or bike ride along the Promenade des Anglais in Nice.

The QUADIC project is moving fast and forward!

The QUADIC consortium has picked up the pace to catch up after two years of remote work. Following the study visit carried out last February at the University of Perugia in Italy, a new study visit took place in Sofia, Bulgaria the last week of March.

The QUADIC project aims to promote and improve the international strategy of Kosovar and Albanian higher education institutions. In this context, the objective of this visit was to define the bases for the creation of a regional network of cooperation in the Balkans in the field of internationalization. Several workshops, presentations and discussions were held during these three working days to define the statutes of this network, as well as the software that will be developed to facilitate the transfer of knowledge and good practices within this network.

During this visit, Université Côte d'Azur also led the work of analyzing and evaluating the performance of the international relations departments of our Kosovar and Albanian partners.

HEPA Europe 2022 Congress - An ecosystem approach to health-enhancing physical activity promotion

Université Côte d'Azur invites you to the HEPA congress which will be held from August 31 to September 2, 2022, at the Palais de la Méditerranée in Nice. It is organized jointly by Université Côte d'Azur and the Regional Office of the World Health Organization for Europe, under the aegis of the Ministry in charge of Sports and the Ministry of Solidarity and Health.

Its purpose will be to encourage participation, meetings and exchanges between actors in the field, decision-makers and researchers, in order to try to provide, together, answers and elements of solutions to promote a physically active lifestyle.

In brief

♦ **I AM Europe project**
Participate to the [citizen-targeted survey on Europe](#) and give your opinion on the actions of Europe on your territory

♦ Université Côte d'Azur presented the I AM EUROPE project and the Ulysseus European University at a round table organized during the EUR'HOPE event of MediaSchool, in the presence of the Centre Europe Direct and of Magali Altounian Deputy Mayor of Nice, delegate to European institutions. This event, which took place on March 21, was an opportunity to discuss with more than 180 students the functioning of the European institutions, the opportunities offered to them by the European Union in terms of mobility, internship and employment.

♦ Université Côte d'Azur submitted 23 projects in response to the ANR generic call for projects.

Selection of ongoing calls for projects:

- ♦ AAP Doyen Lépine 2021 Call of the City of Nice. MET internal deadline: [27/04/2022](#)
- ♦ Jeunes Docteurs Innovants - CR PACA. 3 submission dates in 2022: [22/04](#) et [22/07](#) [Link](#)
- ♦ Horizon Europe Cluster 2 SHS: [20/04/22](#)
- ♦ Canceropôle PACA / Emergence Call for projects: [28/04/2022](#) [Link](#)
- ♦ I-DEMO - Programme d'Investissement d'Avenir (PIA). [03/05/2022](#) [Link](#)
