

Registrations are open for the first Ulysseus Open Event

**11 MAY**

**Ulysseus Open Event**

The first Ulysseus Open Event will publicly present the **Ulysseus Campus**, the **six Innovation Hubs** and all the opportunities they can offer to the **Ulysseus Community**, including academic degrees, research and entrepreneurial projects, and international mobility in a wide variety of topics.

This virtual event aims to interconnect the diverse actors of the Ulysseus Innovation Ecosystem and to help co-create the Ulysseus structure, fostering opportunities for interlinked Education, Research and Innovation projects and activities.

**AGENDA & REGISTRATION**

**Launch of the NEMEDUSSA project (Erasmus+)**

To develop the research and educational capacity in Sub-Sahara Africa in the field of nematology, or the study of roundworms, a joint Erasmus+ KA2 project was recently launched. The Erasmus+ project, Capacity Building in Higher Education (CBHE): Nematology Education in Sub-Sahara Africa (NEMEDUSSA), is a joint effort by a consortium of Universities from Sub-Sahara Africa and Europe.

This three-year project (2021-2023) is co-funded by the European Union (Erasmus+ KA2 CBHE) and VLIR-UOS, and is linked to the objectives of the Erasmus+ Programme. The aims are to encourage cooperation between the EU and Partner Countries and support eligible Partner Countries in addressing challenges in the management and governance of their higher education institutions.

Specifically, NEMEDUSSA aims to increase awareness of nematodes and expand educational and research capacities in higher education and other institutions in Sub-Sahara Africa in this field. This project aims to address the need for increased capacity and specialised training in handling these pathogens, so that plant-parasitic nematodes are managed correctly and beneficial nematodes can be implemented as biocontrol organisms.

**Focus on the TRIGGER project (Erasmus+)**

The TRIGGER project produced its new flyer. TRIGGER (Triggering innovative approaches and entrepreneurial skills for students through creating conditions for graduate's employability in Central Asia) is a project funded by the ERASMUS+ programme through the scheme of Capacity Building in the Field of Higher Education. It will last 3 years (January 2021 - January 2024).

As part of the TRIGGER project, Université Côte d'Azur will share its knowledge and best practices in the fields of entrepreneurship and improving the professional integration of graduates with our partners from Kazakhstan, Uzbekistan, and Tajikistan. The project is coordinated by the Technical University of Kosice (Slovakia). Apart from Slovakia, it involves European partners from Greece, France and Austria and partners from Central Asia - Tajikistan, Kazakhstan and Uzbekistan

**Université Côte d'Azur's key performance indicators linked to the participation in framework programmes FP7 and Horizon2020**

The European Commission has made available, in public access, a new tool which provides extensive statistics on European participation in the FP7 (2007-2013) and Horizon2020 (2014-2020) framework programmes for research and innovation. This dashboard shows the main indicators linked to the activity and performance of participating organisations (universities, research centres, companies, associations) in EU-funded projects.

Please find below the metrics of Université Côte d'Azur  
**INFOGRAPHICS**

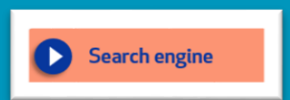

**In brief**

- ♦ Université Côte d'Azur submitted 25 projects in response to the ANR generic call for projects (second application phase)
- ♦ On April 21, 2021, the first edition of "Doctoriales" BoostUrCAreer took place, an annual event targeting Master students, PhD students and researchers. This first edition, organised entirely by the doctoral students of the BoostUrCAreer programme, took place on the virtual and interactive platform "Gather Town". The "Doctoriales", which featured international experts in digital health as speakers, aimed to foster discussions around the theme of e-health, with a focus on the use of research data to advance healthcare delivery and medical research. More info: <https://univ-cotedazur.eu/boosturcareer/doctoriales>

**Selection of ongoing calls for projects:**

- ♦ Erasmus+: [Check out the 2021 calls for projects](#)
- ♦ Scientific cooperation with Peru. Third call for projects. Deadline: **31/05/2021**  
*Contact us for more info!*
- ♦ Setting up European and/or International Scientific Networks (MRSEI) 2021. Deadline: **07/07/2021**

**Events:**

- 5 May / 11h-11h25: Special webinar with the Deputy Director of Horizon Strategic Planning and Programming unit, of the Directorate General for Research and Innovation. [Registrations](#)
- 19 May: InfoDay Horizon Europe / Bioeconomy and Environment [Registrations](#)

**PROJECT ASSISTANCE REQUEST FORM**

For projects to be carried out by UCA, CNRS and OCA

# Key performance indicators in the EU-funded research and innovation framework programmes

## FP7 (2007 – 2013) & H2020 (2014 – 2020)

### EU contribution

EUR **13,52 M**  
of total

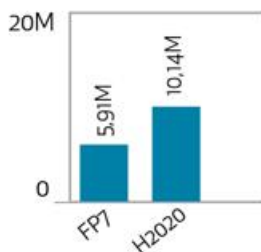

Université Côte d'Azur is in the top **2%** of the most invested French organisations in R&I EU-funded projects

### Signed grants

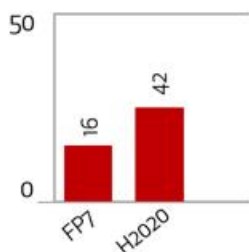

**59**

### Key figures per Framework Programme

#### EU contribution (EUR)

#### Participation (no. of projects)

### Collaborations

Collaborations with **725** different institutions in more than **50** countries in the world

### EU contribution (EUR) by pillar
